

BRINGING HOPE TO THE HOPEFUL

The North Texas communities are filled with abundance: large homes, fast cars, high fashion, signs of the good life. It's easy to forget that these communities actually represent a wide socio-economic base. Caught up in this flurry of excess are hundreds of bright, hard-working high school students who dream of a college education.

Sometimes, these students are overlooked or miss the cut with standard scholarship programs because they lack the highest percentage SAT scores or exceed income guidelines that might otherwise open doors into financial aid. Most often, it is family crisis—finance, health, unity—that temporarily disrupts a student's momentum.

We believe that students with good grades and a genuine desire to work hard for success deserve a chance at higher education. It is this belief that drives the Messenger of Hope Scholarship Fund supporting senior high students across North Texas.

With your support, we aim to turn hope for a college education into a reality.
